

DEPARTMENT OF THE NAVY

OFFICE OF THE SECRETARY

WASHINGTON, D.C. 20350-1000

17 May 1989

The Honorable William H. Webster
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Webster:

For many years, civilian officials of various government departments and agencies have participated in our curriculum at the Naval War College. To continue this beneficial custom, I take pleasure in extending to you an invitation to nominate two representatives for the 1989-90 academic year. Your candidates should have a baccalaureate degree and exceptional potential for advancement.

One candidate will attend the senior resident College of Naval Warfare and should be GS-13 to GS-15. The other will attend the junior resident College of Naval Command and Staff and should be grade level GS-11 to GS-13. The average age of past participants has been 42 and 36 respectively. A Naval War College Catalog is enclosed to provide descriptions of the curricula.

All students at the Naval War College will receive classified material up to and including Top Secret. Your prospective students should ensure that an expanded scope background investigation has been completed within the past four years or that one is initiated immediately after being informed of acceptance for attendance. Certification of security investigations completed and clearances held should be included in your students' orders.

Your candidates should be directed to the President, Naval War College, not later than 16 August 1989 for administrative admission processing. Classes will graduate on 22 June 1990.

Please advise the President, Naval War College, Newport, RI 02841-5010, of your intentions regarding participation prior to 1 June 1989. Information on your candidates should be forwarded to the Naval War College for review and consultation prior to formal nomination.

Sincerely,

H. Lawrence Garrett, III
Secretary of the Navy

Enclosure
